

Vibration Services Description & Rate Sheet

Services include vibration instrumentation removal and replacement, new instrument mounting /fabrication, installation, calibration and trouble shooting of all manufacturers' of vibration instrumentation and low voltage, variable frequency drives. Balancing services also. We will also troubleshoot and repair as required all other types of analog/digital signals and analog/digital signal conditioners. General purpose or hazardous location areas. Calibration reports provided in Excel format.

\$195.00 per hour, per technician.

Overnight per-diem is \$140 per day, per technician.

A local call is up to a 40 mile radius. Local calls do not have a mileage charge. Over 80 miles total, the rate is \$0.75 per mile.

The labor time is billable the moment we leave our shop in Long Beach. The time stops when we return to our shop. The daily charge with overnight stay is the actual working hours. We may elect to leave our service trailer at the job site overnight.

Insurance: We carry a \$2,000,000.00 general liability policy with an approved insurance carrier. Endorsements added at cost plus an administrative fee.
